HOST Cubes Self Bunded Tanks

Stackability, saving space and safely storing smaller bulk liquid volumes are the key benefits behind our **HOST Cubes Self Bunded Tanks** range. Perfectly designed for smaller to medium volume fuel (all derivatives), oils, lubricants, chemicals and liquid food storage, our Cubes offer a smaller tank footprint, whilst still supplying an effective storage and dispensing option.

Each of the tanks in the range can be fitted with your preferred pumping solution and can be powered using:

- Off Grid Solar PV System or 240V Mains Powered
- Diesel or ULP Pump Packages
- Customised Pump Fuel Management Systems

HOST Cubes Self Bunded Storage Tanks

Features and pumping options

HOST Cubes range in size from 1,000 to 10,000 litres, and are manufactured to UL142 (which exceeds AS1940, AS1692 and AS1757) and come fitted with a range of high quality pumping systems.

Standard Cube Features

- Transportable with lockable cabinet on the front
- Setup for diesel or petrol / ULP as standard
- Fill Point – 80 mm (3") with camlock adaptor and cap
- Multiple options for drawing fuel from the tank
- Solar powered pumping option – providing 3 to 4 hours continuous pumping at 70 L/pm
- Genset lines – suction and return ports
- Forklift and crane lifting points
- Hot dipped galvanised corner posts for protection
- Stackable for transporting
- Statutory decals fitted
- Calibrated dipstick with quick view tank top gauge

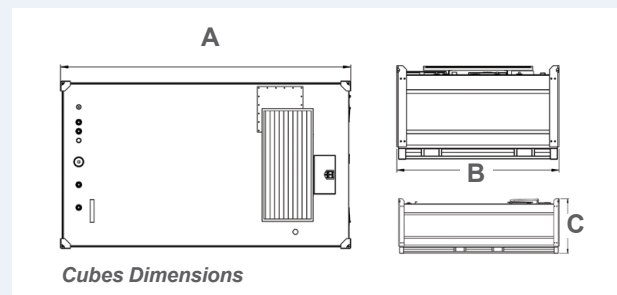

Pump Dispensing Options

- Solar Pumping Off Grid (8 m Auto Nozzle) – up to 80 L/pm
- 240 V Mains Power with mechanical metre – up to 100 L/pm
- Fuel Management System – with pump packages

Certifications

- AS1692–2006 Steel tanks for Flammable & Combustible Liquids
- AS1940–2004 The storage and handling of Flammable & Combustible Liquids
- UL142 Aboveground Flammable Liquid Tanks
- Above ground Storage Tanks for Petroleum products
